Profile

Flutter Developer with **2+ years of hands-on experience** building production-ready mobile applications using Clean Architecture, BLoC/Cubit, RESTful APIs, and Firebase. Delivered **two production applications** published on the **App Store**, implementing real-time tracking, push notifications, payment integration, and background location services. Skilled in writing clean, maintainable, and testable code, with practical experience in Unit and Widget Testing.

Professional Experience

- Flutter Developer | Black Falcons**

03/2026 – Present | Remote

 - Built and published **Zadna Groceries** and **Zadna Delivery**, two production Flutter apps.
 - Applied **Clean Architecture, BLoC/Cubit, and RESTful API integration**.
 - Implemented **Google Maps, live tracking, notifications, payments, and background location**.
- Flutter Instructor | Black Horse Courses**

02/2026 – 06/2026 | On-site

 - Delivered practical **Flutter & Dart training** covering OOP, UI, state management, APIs, and Firebase.
 - Mentored students through **hands-on exercises and real-world projects**.
- Flutter Developer Intern | Elevate Tech**

07/2025 – 12/2025 | Remote

 - Built **4+ Flutter apps** using **Clean Architecture and BLoC/Cubit**.
 - Integrated **Retrofit APIs, payments, and Google Maps tracking**.
 - Wrote **Unit and Widget Tests**, achieving **75% test coverage**.
 - Used **Agile/Scrum and CI/CD workflows** for automated builds and quality checks.

Skills

- Languages & Frameworks:** Dart, Flutter
- Architecture & State Management:** Clean Architecture, MVVM, BLoC, Cubit, Provider
- Networking & Backend Services:** RESTful APIs, Dio, Retrofit, Firebase Authentication, Firestore, FCM
- Maps & Local Storage:** Google Maps, Background Location, Hive, SQLite, SharedPreferences
- Testing:** Unit Testing, Widget Testing, Mockito
- Tools & DevOps:** Git, GitHub, GitHub Actions, CI/CD, SonarQube, Postman, Flutter Flavors

Projects

- Zadna Groceries**

App Store 

 - Built a production multi-vendor grocery application featuring **online payments, order tracking, push notifications, and real-time order updates**.
- Zadna Delivery**

App Store 

 - Built a production delivery application featuring **real-time driver tracking, background location updates, order management, and push notifications**.
- Flowery Tracking App — GitHub** 

 - Built a delivery tracking app with **live driver tracking, route optimization, and background location handling**.
 - Integrated **Google Maps, Retrofit, and Injectable**, with **Unit and Widget Tests** for core tracking logic.
- Super Fitness App — GitHub** 

 - Built an AI-powered fitness app using **MVI, BLoC/Cubit, and Clean Architecture**.
 - Developed **AI chatbot features** and implemented **Unit and Widget Tests**, with CI/CD workflows using **GitHub Actions**.

Education

- Bachelor of Science in Computer Engineering**
- Beheira Higher Institute for Engineering and Technology (BHI)
- 2026
